

vol. 1

WN INTERIORS

we:

love to create nurturing, relaxing spaces for people to live their lives within, blending function with natural materials that are honest & always chosen with care.

wn is a combination of interior design studio + homeware store, sharing the same space just off the green in ashley cross, poole.

our approach is simple.... we offer quality, considered interior design support, as much or as little as you need, by the hour or with a more tailored design package.

we believe each choice you make in your home can lead you towards a calm & happy home, a space in which you can feel your most relaxed & inspired.

we work with:

private clients
developers
architects
makers
artists
local community
you

our approach:

wn has been running as a design studio for nearly twenty years, giving us plenty of time to evolve and hone our style & design logic, we like to think arriving at a pretty good place.

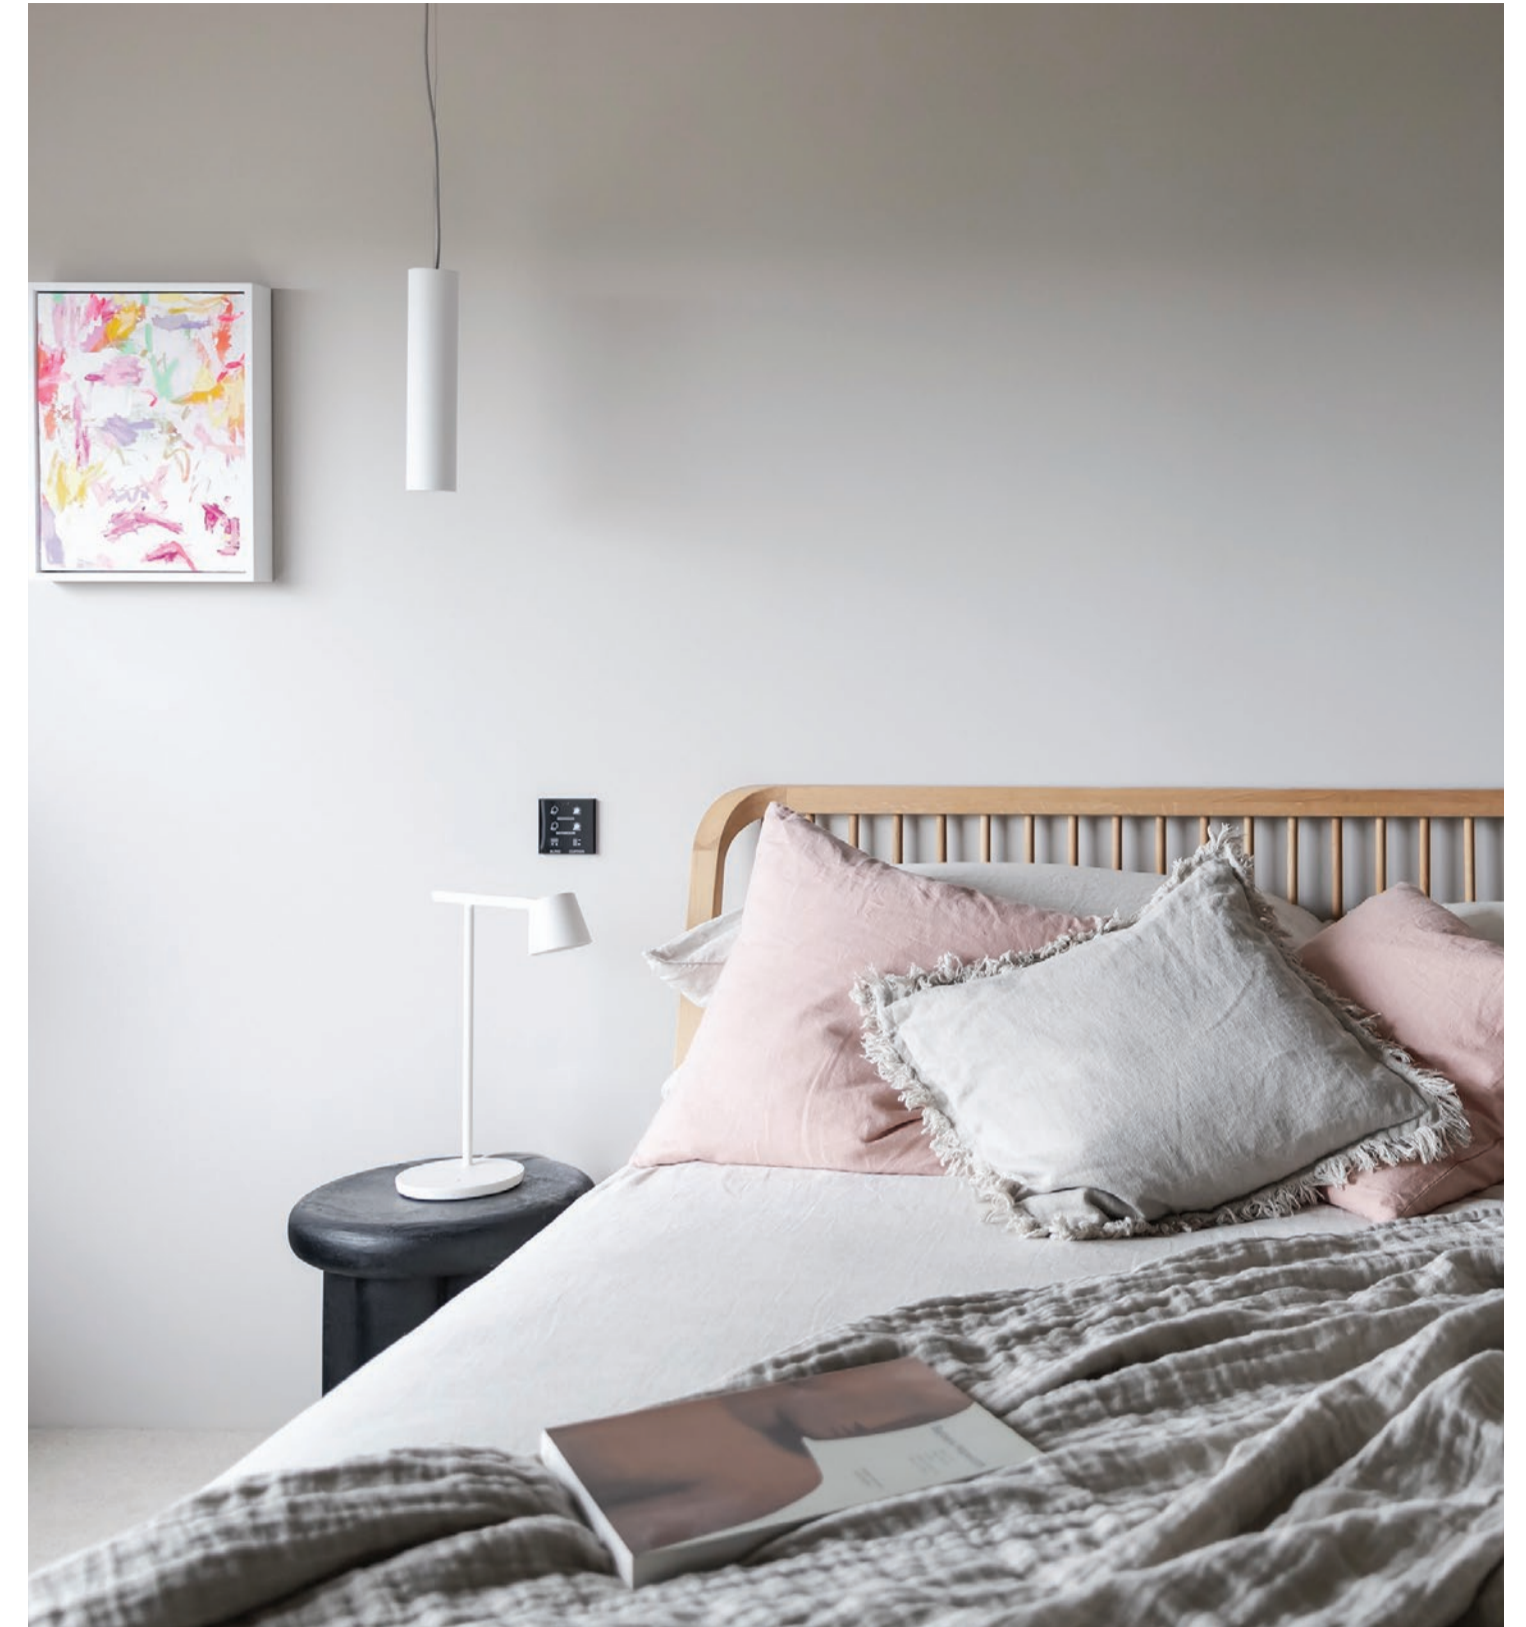

our design approach is always to understand the function & need first, responding with clear uncluttered design solutions often using natural materials, selected for their longevity & timeless qualities.

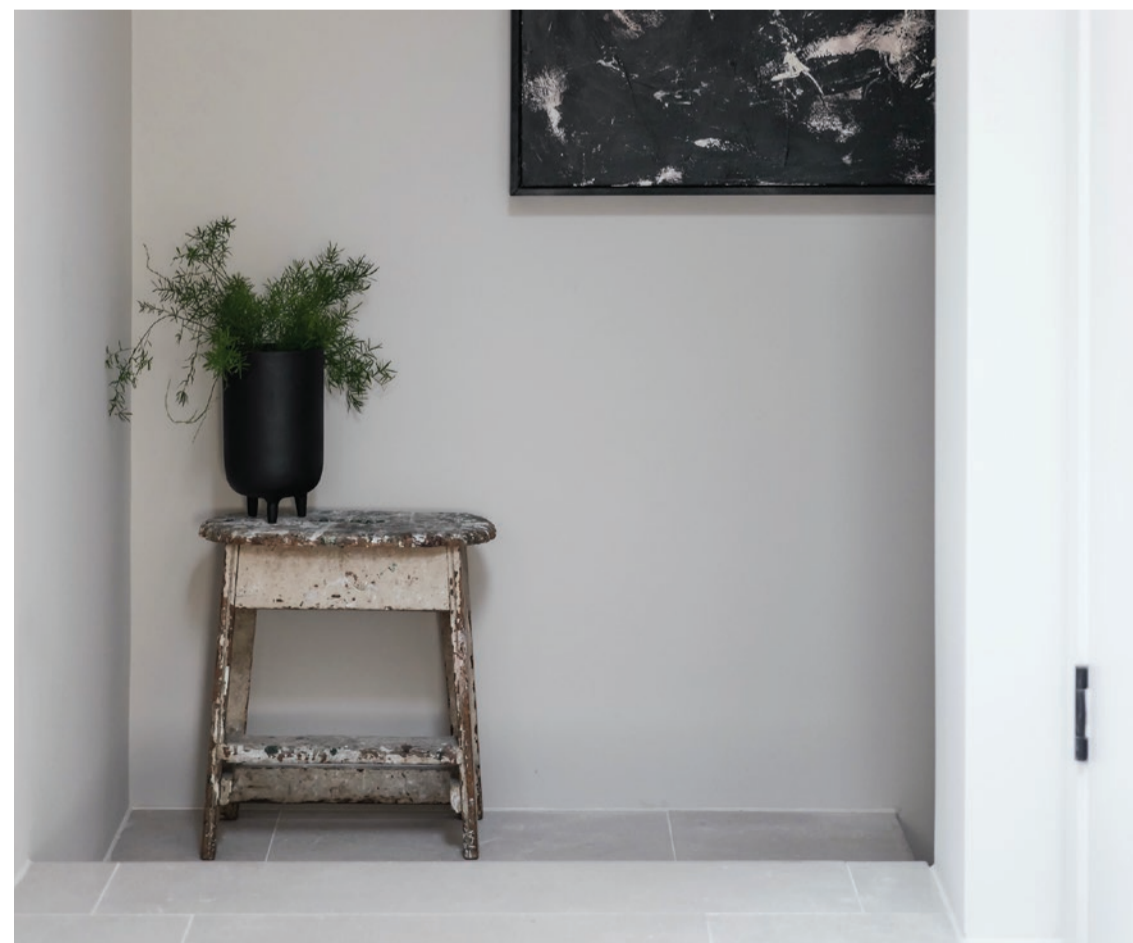

this logic is naturally reflected in the wn store, allowing you to take away carefully chosen homewares and create calm & comfortable spaces in your own home.

as well as the considered new items, our green labels highlight vintage or pre loved pieces we have sourced to encourage the blending of old & new and bring soul & depth into our designs.

wn stay has combined the studio + store to create a fully designed apartment you can rent, to get a deeper sense of our style, created to encourage a sense of calm & stillness, whilst you relax & recharge by the sea.
